- We uphold leading edge Technical, Professional and Safety Standards.
- We develop Innovative and Efficient solutions that create value for our customers.
- We are proud of our Heritage and our Achievements.

Our Sectors

Message from The Board President on Sustainable Energy Solutions

When I say we are leading the energy transition at Jaied MHA Holding, it means we know exactly how, when and where we want to be next. Over the past three decades, we've worked to build an integrated and compelling platform to reshape the future of the energy sector that is dedicated to driving positive impacts for all along this journey. Always attentive to the most complex demands of society, we are the privileged partner of our customers to decarbonize their energy matrix. But we want to go even further guided by solid and achievable objectives that correspond to our mission and which have been extensively studied by our competent management who leads our incredible team.

Mr. Massoud Hassan Jaied
Board President

We have aligned our public commitments with the urgent needs of this Decade of Action, the critical period until 2030 during which, according to the United Nations, the world must accelerate sustainable solutions to reduce global greenhouse gas emissions.

We have defined new objectives that reinforce our role in accelerating the energy transition and the fight against climate change. I am very proud to lead a team that considers sustainable development to be an integral and inseparable part of our strategy.

We engage people and drive business with the energy we provide. Our group is supported by many roots. Therefore, we are present in the lives of thousands of people every day. We work with those who dare to think big, innovate and look to the future. Always committed to ethics, safety and sustainability. To be where we are today and to build an even brighter future, we have a strong human culture that comes from within ourselves.

I am very optimistic when I see what we still have to do, I am confident in our team's ability to deliver and I have no doubt that we will succeed in our journey because every day we wake up with a great sense of pride in what we do, the ambition to transform the world and the dedication to prove that our goal is worth it. We continue to work together to redefine the future of sustainable energy with the belief that our success will directly contribute to addressing two of the world's greatest challenges: Clean Energy and Climate Security!

Diamond Nutrition Trading FZCO (DNT), a member of Jaied M.H.A Holding, is a leading global supplier of high-quality food and agricultural products. We work with a diverse range of providers to get you the best prices and quality. DNT manages the global presence using lean methodologies, which further allows us to effectively decentralize our deals. Our clientele ranges from enterprises, corporates, and start-ups. However, we exist because of them so each customer is unique to us. We are actively on the lookout to build long-term partnership relationships that offer value to our end customers and partners. At DNT we utilize an integrated, multi-modal approach which is a driver for developing innovative solutions for our customers. Increasing our origination capabilities and our market share in high-growth destination markets are key to our vision for long-term sustainable and profitable growth.

With commercial teams operating across all the main geographies, we have unparalleled insights into the characteristics of local, regional, and global supply and demand. Such expertise enables us to support our clients and partners with risk managed programs incorporating all optionality's on many factors including origin, quality, and scheduling. DNT is also a market maker. We provide both bids and offer proposals to enhance market efficiency and liquidity. Our global presence means we can serve growing regions well.

MARKET EXPERTISE:

DNT's success is built on a deep practical knowledge of the sugar marketplace. Our multi-dimensional involvement gives us direct understanding of the dynamics affecting market performance including the agricultural, processing, logistical and financial imperatives. We use that knowledge to identify, create and capture opportunities for our clients in the short, medium, and longer terms.

B2B BUSINESS:

We are active in commodities imports/sales of processed and raw materials for small, medium, and large industries. We also have a pricing program, which provides a fixed price contract for the customer, helping to reduce variables and long-term planning.
